Thread: [Win 8 back to Win 7](#)

tracker1098 - January 3, 2013, 3:22 pm

Can someone tell me how to switch from win 8 back to windows 7 on a samsung ultrabook.

m4gnumsnip3r - January 3, 2013, 3:27 pm

You may use the recover discs supplied to you by your vendor. In case they aren't then you have to reinstall Windows 7 removing the current system partition. Windows does not allow downgrading Windows 8 to Windows 7. A fresh install is advisable to avoid any conflicts and for smooth running.

tracker1098 - January 3, 2013, 3:28 pm

Which is the best way to format a C drive and allowing a fresh install.

m4gnumsnip3r - January 3, 2013, 3:34 pm

You have to freshly install Windows 7 using Windows 7 Installer disk or from a Pen Drive if your ultra-book does not have a Optical disk drive.

tracker1098 - January 3, 2013, 3:51 pm

Its does but when it restarts it goes into windows setup and then wont work

m4gnumsnip3r - January 3, 2013, 3:54 pm

What is the exact error that you are facing. If possible then take a snap of the monitor and post here so it will be better to see the error and suggest a solution accordingly.

Fooke1954 - January 4, 2013, 8:51 am

you'll need a win7 dvd and then will have to go from there to format

spyware - January 4, 2013, 12:27 pm

Hehe you can't "downgrade" sorry to say :P

You'll need a old fashion reformat^^
