Genres: Action, Drama, Mecha, Romance, Science fantasy, Tragedy

Written by: Hiroyuki Yoshino

Studio: Production I.G

Episodes: 22

Released: Released October 14, 2011 – March 23, 2012

Storyline: 8/10

On Christmas Eve, 2029, the unidentified "Apocalypse Virus" spreads and plunges Japan into a state of emergency in a chaos known as the "Lost Christmas" incident. An international organization known as the GHQ intervenes with martial law and restores order to Japan at the cost of its independence.

Ten years later in 2039, Shu Ouma, a 17-year-old high school student who keeps to himself in school, meets Inori Yuzuriha, the lead singer of Egoist, while visiting one of his favorite places before heading home from school. Shu is a big fan of Inori, a singer who has taken the Internet world by storm. However, he also discovers another side of her: she is a member of The Undertakers, a resistance group that aims to liberate Japan from the GHQ.

The story was simply amazing when i watched Guilty crown for the first time. Everything is close to perfect when it comes to the storyline, however the storyline is only perfect on the first half. Personally i think it dropped and didn't hold the standard that the first half had, therefore i'll only give the Storyline a STRONG 8.

Animation: 10/10

Oh my god is the first words that comes to my mind when i think about it. The animation in Guilty crown is simply beautiful. The animation is clearly modern and there is pretty much nothing bad i can say about it. From characters to environment the animation is incredibly good in all ways. I can't even imagine how many hours were spent making this anime. There is so many details and it's clearly one of the best anime i've seen when it comes to animation.

Sound: 10/10

From the background sounds to the characters voices. It's all so good. The voices is perfect for the characters and the music used in in Guilty crown is incredibly well made. The opening and ending is incredible and i can't describe it in words. If sounds and music is something that you really need in a anime, then go watch this anime right now.

Characters: 8/10

The characters in Guilty Crown is good. The characters in this anime all got secrets, secrets that you'll get your mind blown when you reach the end. Personally i think there were too many secrets to be revealed when it came to the characters and i think that some of them didn't match the characters.

Overall: 9/10

Overall the anime is incredibly good and deserves a 9. It's one of my top rated anime. It may have some flaws but the animation, the sound and pretty much everything about it is incredible. I've watched the anime twice already and there will probably be a third time too. If you haven't seen it yet, i STRONGLY recommend this.

NOTE: If you enjoyed Code geass, then this anime is definitely something you should check out.

I personally liked this show a lot as well. Yes, this show gets a lot of shit for some let's be honest good reasons, but if you're watching a show to review it of course you're going to look for certain things, and not think about how you actually feel or react towards the show and characters.

Mikoto Urabe - January 3, 2013, 4:14 pm

Great review, I thought it was great until,

Spoiler ([Click to View](#)) right after gai was "killed" that's when it got a little bad and started to bug me a bit because shu went a tad emo and pretty much gave up on his own life and didn't follow through with what he wanted and tried to be just like gai. but right after he had his arm sliced off/power taken it got better again and the ending was very good but sorta rushed.

juniiflow - January 3, 2013, 4:16 pm

I only watched like 3 episodes of this, wasn't a boring anime.
good review man.

Salvage - January 3, 2013, 4:29 pm

I agree with the rating of "9", it was entertaining and the plot had a few twists that helped regain a better outlook.

~Para - January 3, 2013, 4:33 pm

The ending had me in tears. Shit was so sad.

The animation is probably the best I've seen since Bakemonogatari.

Elfen Lied - January 3, 2013, 4:34 pm

The show started off very very well but half way through it really turned around and I didn't like it.

inb4 Programmargorp says same thing as me but in a better way

Lonephenom™ - January 3, 2013, 5:06 pm

Great review man I loved it.

Inori - January 3, 2013, 6:53 pm

I agree. As much as I hate to say it, the first 12ish episodes were the best. Then it went downhill :(I loved the music though :D

D3tr3x - January 3, 2013, 7:05 pm

I've heard the story is suppose to suck really bad from a lot fo different people? I haven't seen it, but there are a lot of people who's like the writing is so bad etc.

Although since I love everything, I might give a watch anyway.

Mikasa - January 3, 2013, 11:24 pm

The story falls off at the end. The start and mid part is good tho. I think that the animation and sound makes up for it tbh.

SCARLETT JOHANSSON - January 3, 2013, 11:27 pm

This particular Anime left me speechless. Especially at the end. Made me tear up a bit.

2awesome4u - January 4, 2013, 12:02 am

Gotta love 'em EGOIST.

Nice review.

Spoiler ([Click to View](#)) I cried when Inori died.

SCARLETT JOHANSSON - January 4, 2013, 12:08 am

Really nice review man HQ as it can be! i might watch this anime soon ! can someone tell me if its worth it?

rxki - January 4, 2013, 4:32 pm

It wasn't a bad anime, I enjoyed it.

In my opinion, it left me wanting more after each episode.

Baysick - January 4, 2013, 5:25 pm

Loved the review, but hated Shu. Weak character, I mean don't get me wrong, he just let emotions take over. Way to easy to persuade. I hate his type of character, other than that. LOVED the anime.

Same but I don't hate him that much. I like the character type like Kirito.

Yeah, it's not my favorite type of character either. I like when the character is usually funny and then gets a lot stronger when he's serious. Like Luffy from One piece ^^,

Tims - January 5, 2013, 4:38 am

Guys , DO you suggest me to watch this anime? are there any funny parts in the anime?

It's really good overall. It had an average comedy rate. I highly recommend you watch it.

I wrote a full review about how much i wanted people to check out the anime. Isn't that enough to say that it's worth it? :)

Eminent - January 5, 2013, 1:20 pm

Only thing I didn't really like about the review, was that "Tragedy" was in the genres, giving slight spoilers to people who haven't seen the series, like me. Other than that, great job, I'll check it out

Can't tragedy mean that someone dies? In most action anime there are people dying all the time.

The fact that it's tragedy doesn't mean that it has anything to do with a key person in the series?

I think ?

SoundMatch - *January 9, 2013, 3:48 am*

The second part of the season got kind of boring. Especially after Shu became a dictator. Fortunately he is human and realises his mistakes.

Put that in a spoiler dude. You're ruining the whole anime by saying spoilers. I did it in the quote so people can't see what you wrote by looking at my post.
