Thx to Njq8 For Njrat Classes

**Vincent1468** - January 5, 2013, 7:32 am

Coded by you?

I think that I saw this before.

**DJ BrU** - January 5, 2013, 7:34 am

He def didn't code all of that without some C & P.

Call 1-800-prove-it and I'll buy you a stick of your old deodorant!!

yes this is jordan RAT v0.5 from dev-point iam coder

**Bing™** - January 5, 2013, 7:42 am

Simple RAT Coded By me -> And then you admit it wasn't you the coder.-

**Okey...** - January 5, 2013, 7:42 am

Yes, post the sourcode then we will see 10000 new market threads with 100% fud ub3r RAT's

**Dark\_Noodles** - January 5, 2013, 8:20 am

shouldn't have done this op...you're making a mistake.

no dude this is a very simple rat i write a powerfull RAT named DarkEagle Server Size 17k plugin System

**[ ZERO ]** - January 5, 2013, 10:17 am

Reminds of my old RAT source that i've released here. Could it be?? =D

**Xyzo** - January 5, 2013, 3:40 pm

Thanks for sharin, anyway its C&P or not :)

**c0ffee** - January 5, 2013, 3:56 pm

Well the source might come in handy for educational purposes. Thanks!

**Han.** - January 5, 2013, 4:13 pm

This is NOT yours. See my thread on "Why I hate my generation...". It will explain how much hatred people like you create.

this "Simple RAT Coded By me "  
its my point this code is old as hf and its base on vb 2005 ide hope u know what its mean

**alaabawaneh3** - January 6, 2013, 5:54 am

Dnext

If you want to challenge we can start programming a remote control tool and put it here after the end of the time period and the loser apologizes, you accept

proof this ????

**DNext** - January 6, 2013, 6:00 am

i dont say u cant code i just say that the quality of ur code is poor  
i code rats long time i also stop coding it and work on better connection class as this is the base of good rat  
i have so many rat src and non have good class  
any one can take rat src and edit it  
but how stable is ur rat is the quetion

You're a fucking idiot. I hate assholes like you who scan on VT. Do you think that whoever made this source didn't work hard on it to make it FUD? Well you just fucking ruined it.

Please, go kill yourself.

This thread is 7 months old and OP probably has no idea how to code.

**xXTheProxyXx** - June 21, 2014, 9:00 am

i found somewhere in code njq8 and that is coder of njrat ??

**iMeetYourMum** - June 21, 2014, 10:25 am

The most copy/pasted RAT in the world.

**zeroexp** - June 21, 2014, 10:33 am

This shit is all over the internet.

And TheProxy, why the hell are you gravedigging. It's not fun man. Cmon...

**IAmNotHere** - June 21, 2014, 10:47 am

Maybe a stupid question: Why is the Poster banned?

These are OLD posts, look at the date when this was posted.  
You know, shit happens in time.

**IAmNotHere** - June 21, 2014, 10:51 am

This isn't answer to my question. Do or don't you know?

**Server97** - June 21, 2014, 10:55 am

Come on - I've seen this on the internet thousands of times.

**zeroexp** - June 21, 2014, 10:59 am

If you're inactive you get banned. 97% sure that's what happened. Many people come on HF but not all remain here.

**IAmNotHere** - June 21, 2014, 11:02 am

There you have a point.

Have a good day.

**mrezzaaa** - July 28, 2014, 6:03 pm

anyone can fix this problem?

this is a some error when i'm compiling the stub on visual studio
