Exceptionally good quality for a show I thought was going to be a moeshit. Also, some Japanese VAs singing in Russian should be enough to get you to watch:

Probably one of the most retarded animes I've seen.

Back when I only saw the trailer I knew it was going to be shit, and what you know, it did turn out to be shit.

Why can't they think of better animes like in the days of Dragon ball and Yu Yu Hakuso, almost everything is shit now,

It's just sad ;___;

Heard Katyusha/?????? over 10,000 times. Still haven't had enough of it yet. Make this my 10,001th time.

I watched the first episode when it first came out and didn't watch others as it didn't seem entertaining and had already a ton of anime to watch. Maybe in the future. ><
