hiraeth. - January 22, 2013, 2:25 am

FANTASTIC TUT! Very well done! Learnt a lot from this! Thanks!

Serenity - January 22, 2013, 2:26 am

Nice man! Keep up the great work, i really like it...

Reverse Engineer. - January 22, 2013, 2:34 am

Great tut.

I bet it will definitely help users out.

PLxM - February 1, 2013, 7:11 am

Good tutorial.

Should post a download link for stuff for signature, such as stock images, renders etc

FreeBSD - February 1, 2013, 7:26 am

FANTASTIC TUT! Very well done! Learnt a lot from this!

Mario - February 3, 2013, 2:47 am

There is not much point having anti rip at the bottom. it could just be cropped

Issvor - February 3, 2013, 10:22 pm

Thanks for the tut man! But with that "Anti-rip" thing, that won't do anything... Just put you name with a low opacity over the tut a few times

Federal - May 1, 2013, 10:02 am

good tutorial :D should have done one without using C4D

Faxulous - May 1, 2013, 12:17 pm

That's an awesome tutorial. Keep up the good work.

Gamersdont - May 2, 2013, 4:01 am

Good tutorial, but you put in a few extra thing's that weren't needed what so ever.. but good.

Assailant - May 2, 2013, 7:00 am

Awesome tutorial man!

Keep up the good work, hope to see another soon :3

dj.abhiyukthan - May 4, 2013, 2:55 am

Very useful one thanks dude :) this will help me a lot

ArchXAngel45 - May 4, 2013, 6:03 am

Awesome tutorial! It could be useful In the future!

=D

Alterations - January 1, 2014, 11:18 am

Nice tut man! Thanks for this! Oh, yea and Happy New Year!

whyso - January 16, 2014, 6:15 am

Nice Tutorial Man!! Keep it up! ?

HIGH PAID FELLA - January 16, 2014, 8:39 am

Good tutorial, is the base to create great looking signatures.
