I'm so glad Liberty Reserve finally released your funds!

.Infinity. - February 9, 2013, 4:22 am

Are you paying any rates over 1:1 when purchasing Liberty Reserve? I've got a ton in stock that I'd like to sell for PayPal or Western Union, but I'd like to get 10-15% in my favor.

Nope, I am always charge % for LR because all my fund from real cash or bank (I don't accept PP, Payza, MB from anyone). Therefore it is pointless to buy LR at higher rate. I am buying LR at 7% fee with PP and 10% fee with WU/Bank transfer.

I don't understand. I want to sell you \$1000 Liberty Reserve for example.

Detail of the rate and proof of fee is sent via pm. Feel free to check it.
I am sending it from WU office not online so it would take 1-2 hours for MTCN and 2-4 hours for
scan of the WU. Also it will be faster to communicate by msn/skype/yahoo/icq. Pm will take longer. I
am using pm only for confirmation/proof of the deal.

For 500 LR, you will receive 420 WU and I will pay all fee. WU is sending from WU office not online.
Scan also available. It will take 1-2 hours for MTCN to be ready during work days from 10am-5pm (4
hours for the scan). Contact me for exact time you will receive MTCN because WU office is 45 mins
away from my house.

There is no chargeback / cancel ukash code unless it is illegal ukash. Those ukash will be disable/blocked in 2-7 days. That is why I always ask for scan/photo. Without scan or photo then fee is much much higher.

*note: ukash with receipt can also illegally obtained by different method

For legal ukash, ower can ask for refund of the ukash / use ukash

Quote:Can I get a refund?

You can request a refund if your Ukash code is still valid and unused. ... Complete the Consumer Refund Application Form and send it with the original Ukash code receipt to ... Refunds can be requested up to 7 years after codes are issued, subject to fees. See Ukash Terms and ... Ukash issued in South Africa or Brazil cannot be refunded due to Reserve Bank regulations.

Hope that clear thing out for you.

Also you can ask buyer contact me directly. Buyer send me ukash, I will send you the payment and transaction detail will be sent to both party (i am the MM). It would be easier for you. You can

discuss it with your buyer and let me know.

I have UKASH need BTC/PM/WMZ

himyfamily - December 15, 2013, 8:08 am

My apologize to all client/pm/post that has not been answer. I was busy with preparing for the holiday so my online time is much less. Also I will be away from 23rd to 29th for holiday. I will be online 1-2 time a day and for 1-2 hours. Exchange would take a bit longer time. A lot BTC/LTC/PM in stock and enough for the holiday period so contact me whenever you need exchange.

**** VERY IMPORTANT NOTE FOR PSC AND UKASH customer**

Recently ukash has blocked high value and newly purchase (purchase not over 1 hour) more often then normal . This is not regard my ip or processing method. It has been tested with multiple 50 gbp , 100 gbp ukash for me to come to the conclusion. Plus PSC also experience the same thing if you are providing wrong code and amount (I won't check your PSC, I process it with webshop payment). Their support said it is random security measure so exchanger must be ready to call ukash/psc support if code is temporary block. So keep in mind that payment only send out when code successfully processed.

Thank you.

himyfamily - December 29, 2013, 3:05 am

My apologize to all clients. I am now back from holiday and exchange is back to normal. WU exchange now will take 24 hours due to holiday.

You now can reach me via PM/IM/Email.

Thank you.

im willing to buy 100 euro psc

100 EUR PaySafeCard = 87 USD btc-e code

100 EUR Ukash = 89 USD btc-e code

You will need photo of full receipt. 5-10 mins processing PSC and you will receive btc-e code.

keep in mind that PSC/Ukash have recently temporary block ukash/psc. You might have to call them to unblock it.

DO NOT SEND ME PSC/UKASH VIA PM. I WILL SEND INSTRUCTION FOR EXCHANGE.
