Thread: [Need a hack to troll ttt on Gmod 13](#)

incap - January 13, 2013, 7:07 pm

it would also be cool to come up with a clan of hackers to raid with. thanks for your time and ur efforts.

Vagxination - January 14, 2013, 4:40 pm

No please no, their rare no clans of hackers who raid GARRY'S MOD SERVERS.
And if you bothered looking their are many hacks in the Lua section.

Thank you so much for contributing to this forum.

This subforum is not your own personal directory for Gmod hacks, it is for discussing the coding language.

It makes me sad how no one reads anymore or cares.

Here is your freebie:

IN CONSOLE TYPE:

alias a "TTT_RADIO #####@@@@@#####@@@@@#####@@@@@@"

then type:

bind i a

Now every time you hit i you say #####@@@@@#####@@@@@#####@@@@@

The end.
