Thread: [\[Preview\] GTA IV Mod Tool Xbox360 \[Preview\]](#)

ThrillerCloud - January 16, 2013, 2:48 pm

hi,

Guys what you think about my GTA IV MOD TOOL it really works only issue i have is with the weapons selection in the amount that's what im working with now what you guys think with the theme i should add a theme or leave it as default ?

There are so many of these, why re-create the same tool?

ThrillerCloud - January 16, 2013, 2:53 pm

idk i was bored lol but im making something like modio 2 idk just to release the source so people can see how they are made

Or you can just use Horizon?

Horizon is more trustable as well and has been out for years...

isnt this c#? (if its RTE/RTM)

unless its a savegame editor

Yooooo you can't fix the Health / Armor because it is a Float. 1E+14 is the max.
