CryptShock - January 17, 2013, 10:06 am

Start your own Crypter business or crypting service

Reason for selling

EncryptX Crypter V2 will be released in few days and also need money to pay dues.

The source is FUD 0/37 and also started to add comments to the source.

Source was last updated Today.

Features and Screenshots

Read the sales page of EncryptX Crypter V1

<https://hackforums.net/showthread.php?tid=3113182>

Crypter bypass on Runtime:

Kasperky [Tested with kaspersky pure]

Norton [Tested with norton 360]

Avira [Tested with Avira internet security]

Avg [Tested with AVG internet security]

MBAM [Don't know the version]

and many more...

What you will get with source :

Re-Fud guides

Re-FUD tools [private tools I made]

I will sell 1 or 2 copy's depending upon the offers I get.

I mean if I get high offer i will only sell 1 copy and if i get decent offer i will sell 2 copy's.

You will be the Full owner of the source and you can sell the crypter without giving credits.

Payment methods:

Liberty reserve [LR]

Western union money transfer [WU]

bitcoins [WU]

I'm not accepting PP or other payment method because there are many scammers.

Pm me your offers if you want to buy
