Thread: [I NEED AN EXPERIENCED GUY! CAPABLE OG HELPING ME WITH JAVA](#)

Fresh Prince of Bel-Air - January 18, 2013, 2:13 pm

WASSUPPPP!

I really need at guy who's willing to add me on skype and help me with a LITTLE problem i got programming my TicTacToe in Eclipse. AASSAAPP!!!

Im sure it doesn't take more than 5 minutes to help! :)

Skype: fady.allan

(It's a TicTacToe game including 6 classes. And it works perfect, i just want to move ONE single button from the GUI, but i can't do it without fucking the whole game up)

Thanks in advance?

Ive got my help! ;)

You want to move one button? I'm going to assume that you're using JFrames. You are probably using a layout, don't. Use `frame.setLayout(null);` and then for your buttons do `button.setBounds(X, Y, Width, Height);` Then you can fully control all the positions of everything.
