Is that lipstick? The guy must like dressing up in skirts and putting a bra on too, by the looks of it.

eew fuck dude haha that's funny though, well one of my stories was I had this girl slave who was about 18 or 17 around my age, she was looking at those bullying stories on facebook so I started getting nervous thinking about the people I have lost from that stuff, anyway I felt bad so I was talking to her on skype with my fake account (the one I send her the RAT on) and I said I am really sorry I am not a girl I am a guy. now I knew that I could trust her so I said to her I will even send you a link to my proper facebook, I did and we became friends even though she lives half way around the world from me. because she was starting at her new school she was afraid that she would get bullied so I just told her that she could talk to me about it if she wants. I still keep in contact with her till this day. most people just want someone to talk too and I was glad she could talk to me.

Best slave i got was a girl who played Runescape, I stole about 900M from her, then I went to look on webcam, and she was naked
