This intro was for a HF Member. Please tell me what you think and this is not the final version either. Some changes were made and the new video was sent to the client but I'm not re-uploading the new one. Please leave all criticism below and if you would like to see more of my work maybe subscribe and check out my website <http://avionhd.com>

0:00-0:07 were the parts I liked best. From 0:07 on wards it would of been nice to transition to a secondary text such as his YouTube link or anything relevant. And a few RGB splits synced to the beats would be nice too.
