Hey Guys,

Source: <http://www.askvg.com/google-android-hidden-secret-codes/>

Got ya with the tittle didnt I? heheh :)

On topic: , I found a couple of codes that can do different things here they are:

1. `##4636##` = Phone & Battery Information, Usage Statistics , Wifi Info.
2. `##7780##` = Factory Data Reset
3. `2767*3855#` = Full Factory Format: Warning: This Will Remove everything on the phone and install firmware on phone again.
4. `*##34971539##` = Phone Camera Information (Firmware etc.)
5. `##7594##` = Change End call / Power Button
6. `##273283*255*663282*##` = File copy screen for backup
7. `##197328640##` = Enter Service mode.
8. `##232339##` OR `##526##` OR `##528##` = WLAN Test
9. `##232338##` = Mac Wifi Address
10. `##1472365##` = GPS Test
11. `##232331##` = Bluetooth Test
12. `##232337##` = Bluetooth Device Address
13. `*##8255##` = Launch GTalk Service Monitor.
14. `##0*##` = Testing for LCD Screen
15. `##0673##` OR `##0289##` = Melody Sound test
16. `##0842##` = Vibration & Backlight Test
17. `##2663##` = Touch screen version info
18. `##2664##` = Touch screen test

19. ##0588## = Proximity Sensor Tester.

20. ##3264## = Ram Version

I did not copy / Paste, This tutorial was in my own words. Thank you & Enjoy the codes!

I only knew the ones for phone information, battery information, usage statistics, and wifi information and full factory format.

Thanks for this, some of these may come in handy at some point and time.
