Thread: [RAT SETUP?PORT FORWARDING?TEST INSTALLS?CRYPTING?MALWARE REMOVAL?JDB SETUP ETC ETC](#)

Super Hulk - January 22, 2013, 2:12 am

doing any of the above
see my signature

i can almost do anything with rats
to say i can setup any rat,portforward any router(except some 3g ones or new shit)
and can give away few installs
then JDB also i can do
crypting too
but non fud (5/35 or around)
and malware removal
etc pm me or add me on skype

Good to see more users helping in this section

Maybe you can work on your thread design :D
