I need a new Sig.

Something classy.

Use a classic Typeface but add a little bit of your own style.

I wanna see how it turns out.

Reject - January 23, 2013, 7:22 am

You should remake my sig, except make it sexier (And a different font and shit)

Same color scheme though, but make it look appealing to the potential costumers.

Type : Signature
Render : None
Text : Loki
Subtext : When internet activists are getting longer prison sentences
than rapists you have to wonder what kind of
world we're leaving for our kids.
Animated : Doesn't matter.
Other: Could you make the subtext a smaller font and below the main text.

Can you do me a signature with the following above?
If possible can you try to get it to match with my avatar? (IF you can't it's fine).
