Not going to go into much detail about this scam as it's not worth my time, it was an exchange my LR to his PP, he charged back, couldn't be simpler.

Please do not deal with this user, it seems he's so poor he'll scam for barely enough money to buy a meal at a restaurant, pretty sad.

Hopefully he enjoys his LR, as I am sure he needs this money to survive, though I doubt he'll win the dispute.
