There was a fourth folder but I had to delete it because it violated the rules of Hackforums. Please, do not ask for it or you will be ignored.

? To get this pack everything you need to have is five seconds available, another five seconds to type a message in this thread and wait for me to PM you the link to the download.

? As a thank-you for spending five seconds following the link I will personally send you updates of the package whenever you wish to have a update. I usually update the package once a week.
