Just ordered the \$4 100 youtube likes package. Will edit with vouch when received.

Edit* That was fucking fast. Had my likes by the time I could get a burger from the drive through down the road. Thanks, excellent service you're offering. Strong vouch, though I wish the larger youtube like packages were much cheaper. What are the odds of you adding a special for youtube likes? I'd definitely buy more if you did, i could really use 1k or so but \$40 is way over my budget.

Edit2* Just purchased 10,000 Youtube views. Will return with results for that as well. • Just got the views, took less than a day. Thanks for the service. He even offered me a custom deal on likes. (Which I'm still considering thanks for that.)

I noticed that social-bomb (thread) and social-bay (your user title) are the exact same website just different domains/names.

Is there a reason for that? Also, I see you offer Instagram as well (main reason I came here), but the price wasn't listed in the Original post.

Good luck with your website, and I'll be sure to buy some later.

As for the design, looks good and very colourful!

migasangelo - April 16, 2013, 5:24 am

wanted to purchase facebook likes, for shared public post,

do i get all the likes instant? i mean once i start to get the likes, i will get them all at the same time, or it will take about 1 hour to complete the process?

can specify when do i want the likes? wanted to pre-prurchase them and get them at a specific time

the accounts are toons of blank accounts or do 80% of them are "real profiles" ?

does this works on a shared post, i mean the original post is from a guy, and i had shared it, and i wanted to purchase likes for my share
