Thread: [My server is not working \[Help \]](#)

?clipse™ - *January 26, 2013, 8:07 pm*

Whenever I try to run my server using Sandboxie the binded program works though I get this error from Sandboxie :

Spoiler [\(Click to View\)](#)

I've followed the correct settings from a thread by Plutonium. Ideas? Thanks.

Mudge. - *January 27, 2013, 9:53 am*

just run it not sandboxie then uninstall from the RAT
