Thread: [How does clickbank work?](#)

Born2Kill - January 28, 2013, 6:15 am

Hello mate can someone explain me how does click banck work?

I have an ebook that i want to sell.. some have told me that click banck is great.

But I do not know how it works. There are some reviewers who will give an opinion of the book? or should I just post it and wait for someone to buy it?

I guess you want other people to sell it for you?

If so sign up for ClickBank as a vendor, and they will do the work for you expect to pay 50+% of the sale to the affiliate.

then if i Sell an ebook.. Other people will sell it for me and i must give them a part of my earnings?

And also is hard sell on clickbank?

Yes that is the correct. You pay someone to sell your product.

Does anyone know what you have to provide as a Vendor? Do you just have to give them a link to the product you're selling or what else do you have to include?
