Imfao, i posted my link in the crypt section and i had it posted like this

"INFECTED!
LINK HERE
INFECTED!"

and its like 20 detects.. so AV will rape it soon as u dl.. n i had NO bots on it.. then about .. 5 mins later.. a bot joined into my channel.. then another..

now they both left.. but one keeps joining n leaving.. they wont stay on long enough to let me remove it -.- soooo... who was teh not so smart person?

I'm in your servers, stealing your two bots, but they keep escaping, sorry. Next time I'll tie them up real good, and lock them in a cage, I am sorry for the inconvenience my stolen property has caused you.

I have 4 bots like this, it's stupid. xD

HydroNick - *March 18, 2010, 7:21 pm*

They're probably opening them up in a virtualbox or something.

IMtense - *March 18, 2010, 7:23 pm*

anytime you upload a link to your botnet people are going to sandbox them and try and steal your net.
