TTT Scoreboard Ranks

[\[IMG\]http://img844.imageshack.us/img844/9617/ranke.png\[/IMG\]](http://img844.imageshack.us/img844/9617/ranke.png)

1. Open up sb_row.lua (gamemode/vgui/sb_row.lua)

Add:

```
Code self.cols[5] = vgui.Create("DLabel", self)
self.cols[5]:SetText("Rank")
```

After:

```
Code if KARMA.IsEnabled() then
    self.cols[4] = vgui.Create("DLabel", self)
    self.cols[4]:SetText(GetTranslation("sb_karma"))
end
```

Add:

```
Code if ply:IsUserGroup("owner") then
self.cols[5]:SetText("Owner")
self.cols[5]:SetTextColor(Color(0,178,238,255))
end
```

To add more ranks remove "end" from the code and add:

```
Code else if ply:IsUserGroup("admin") then
self.cols[5]:SetText("Admin")
self.cols[5]:SetTextColor(Color(238,0,0,255))
Remember to type "end" when your finished adding the ranks.
```

After:

```
Code if self.cols[4] then
    self.cols[4]:SetText(math.Round(ply:GetBaseKarma()))
end
```

1. Open up sb_row.lua (gamemode/vgui/sb_row.lua)

Add:

```
Code self.cols[5] = vgui.Create( "DLabel", self )
self.cols[5]:SetText("Rank")
```

After:

```
Code if KARMA.IsEnabled() then
    self.cols[4] = vgui.Create("DLabel", self)
    self.cols[4]:SetText(GetTranslation("sb_karma"))
end
```

If your having a bit of trouble setting it up, I have added [MY FILES](#) for you to work off.

You can send me a private message if you have a request for a LUA tutorial I can do.
Enjoy ?
