Thread: [\[For #noobs\] How to change IP Address on Skype\[Protection against skype resolvers\]](#)

Apostle - February 2, 2013, 2:26 am

I'm going to be doing a simple tutorial today, by simply changing your IP on Skype to prevent people from resolving your IP Address.

1) Click on Tools -->

2) Click on Options

3) Click on Advanced

4) Click on Connection

5) Untick this box.

6) Change this to HTTPS.

7) Input a proxy.

Proxy's Can be found [Here](#).

Note; this is a simple tutorial for n00bs :)

I just thought I'd post it as many people don't know how to change their IP on Skype to prevent getting resolved/booted.

ca9a2536fd8b17df76f7ee082 - February 2, 2013, 2:28 am

Thank you for the tutorial, I'm sure you're going to help some of the noobs.

Good job OP!

Where can i try to resolve my ip?

35 characters

donormedal - February 2, 2013, 11:45 am

Won't a proxy lag the skype?

good tut

Keeper - February 2, 2013, 11:58 am

Well that ain't really work. As far as I'm aware resolvers are based on the IP from which the account was registered. What's more, tried it myself and resolved to original IP.

Apostle - February 2, 2013, 2:23 pm

I doubt it. Your IP changes, so a resolver would be wrong all the time.

samh532 - February 2, 2013, 3:01 pm

Actually this won't work. The reason being that Skype automatically defaults to your standard connection unless it's blocked, which then it will attempt to connect through your proxy. You have to change the registry to force skype to connect via your proxy. There's a tutorial for this at </showthread.php?tid=3220205>. Nice tutorial nonetheless :)

Ah, nice catch. o.O

I use to use this method though, and resolved myself.

I thought it still worked.

teonanacalt - February 9, 2013, 7:13 am

Good tutorial, very useful guide for who don't know about this.

Thank you so much, bro! good contribution.

sonny403 - March 7, 2013, 6:35 am

thanks, for this! Very usefull for me.

?I???po?N? - March 7, 2013, 8:02 am

Thanks for this tutorial, I've been DDOS-ed a week ago by a skype resolver -,-

But thanks for this TUT now i can DDOS that retard without he DDOS-es me back ;)

jerseyboy9577 - March 7, 2013, 9:15 am

hi there im using a vpn changer.And it wont change my ip in skype when resolve it I tryed the way they explained above but the ip vpn changer i use shows it being a new ip. but when on the vpn it still shows my old one old ip not the new one can someone lead me the right way plse thanks

?Robocope - April 23, 2013, 6:47 pm

I have tried this and it doesnt work for me... why not? :/

Apostle - April 23, 2013, 7:08 pm

Maybe because it's outdated. ?

?Robocope - April 24, 2013, 6:16 pm

The proxy or what is out dated? They are premium hidemyass proxies :D

No Fun - April 24, 2013, 9:50 pm

Thanks a lot man, this helped me out!

Green Lantern - April 25, 2013, 2:05 am

Wouldn't a vpn work? I believe mine shows the vpn IP instead of my actual one.

venonat - April 25, 2013, 12:14 pm

Thanks for the list, i tried this earlier but it didn't work.

Works with your list :)

TheAllah - April 25, 2013, 3:26 pm

trying this atm but im still getting resolved, will check again later

EDIT: doesn't work, went on a diff skype account and it still resolves my ip

K.ing - April 25, 2013, 3:50 pm

Simple Tut, I'm sure some people need to read this though.

Hear people get ddos'd on the reg now.

Sk1blu3 - April 25, 2013, 3:50 pm

thx it's good! :)

you're a good man! :)

Darkbot - April 26, 2013, 1:43 pm

duddy, that's very good, because the skip can show the location of the User, thanks for the tut.

Acroz - April 26, 2013, 2:24 pm

i just posted this a few days ago. lol. Thats cute.

KennethHF - April 26, 2013, 2:31 pm

Good tutorial, very useful guide for who don't know about this.

Thank you so much, bro! good contribution.

Chitoge - April 27, 2013, 12:04 am

Nice tutorial,

But my main concern is that someone on the proxy may be monitoring the data that goes through and will be able to retrieve some passwords.

SwagHacker - September 16, 2013, 8:33 am

Good TUT, very usefull for the noobs!

Regards,
Swaghacker. ?

Pass Candy - September 16, 2013, 11:49 am

Thanks for this tutorial op. Appreciate it

ShadowLock - September 16, 2013, 11:53 am

I am gonna usebthis method bro. But listen ok ok? I aint no nub.

Frosity - December 10, 2013, 3:41 pm

Thanks, no i dont have to worry as much!

HarveySpecter - December 10, 2013, 3:49 pm

thank you for this tutorial was really helpful.

GetRich - December 11, 2013, 3:15 pm

Thank you really much! Really good tutorial. I would +rep you if i could!

HILL'S - December 12, 2013, 1:50 am

it still works the tutorial ?

thanks for reply

blizz3010 - December 13, 2013, 7:22 am

This worked for me. I tested before and after. After I prox'ed using the above stated method my ip was not showing up.

Techiee Walruus - December 13, 2013, 11:10 am

Thanks I am going to use this now. :)

linksmakotis - December 13, 2013, 12:12 pm

This dosnt work for me :(Anyway thank you for the tutorial

jojobinxx505 - January 13, 2014, 6:32 am

very nice post will use this soon thanks mate cheers

MR.Worldwide - January 13, 2014, 11:42 am

Simple Tut, I'm sure some people need to read this though.

The_Unnamed - January 14, 2014, 10:29 am

Thank you so much for this, helped me alot
