Well known people over a forum either 1) Have no life or 2) Have no life, therefore allowing them the time to sit on their lazy asses ALL day, build up their reputation and profile over the webz and then therefore scam.

You used to be able to put your gamertag, as anything on gamebattles. But now you have to verify your account, by logging in with your xbox account. I am staff on gamebattles, I try dig up when the change over happened.

#Sultan - February 2, 2013, 7:18 pm

I can vouch, that is Sandshrew's gamertag, I have him on Xbox.

The gamebattles screenshot posted was the updated MLG screenshot. This mean you had to verify your GT via MS.

I am guessing OP, has only just took that picture. As when he was selling the account his MLG Rank was 7,474th. When people are inactive there rank changes.

ZOMG are you a Cody multi-accounter omg reported.

Vitani's Mate - February 2, 2013, 7:23 pm

I just looked at his rep and people say he owes alot of money to different people.

Wouldn't it be smart to pay them all off and then buy a group.

Sorry but that is just stupid of him to do that.

OP wasn't the one who got the proof it was someone else from what I know.
