Thread: [\[Preview\] CPA Lander v2 - Work In Progress Preview - Thoughts and ideas are welcome!](#)

Prospect - February 5, 2013, 4:17 pm

Well, I started working hard on developing the next major version of CPA Lander. It has now over 80 satisfied customers and increasing daily. That's what keeps me developing the next version.

Features:WYSIWYG Editor
Customizable font colors, size, formatting
Can insert images, links etc.
Theme Changer
Lightweight
Fast

It's still in Alpha but I hope I'll get it finished this month. This is how it looks so far

What do you guys think about it so far?

Current customers can request an alpha version to be sent to them so they can check it out. I need feedback on this :)

Sadly, gateways are not working with this version and they'll probably have to be added manually. I'm trying to come up with a solution tho... :/
