Thread: [\[Demo\] Batch RPG \[Demo\]](#)

thatladjohn - February 6, 2013, 7:08 am

For the last two to three days iv taken some time to create a demo of a Batch file RPG game. If you want to try it out and give me some pointers, email me.

Bio: Pretty simple batch made programme that lets you select you own path. Each character will take you to different places. battle different enemy's and gain different stats.

Pictures:

[IMG]http://i1359.photobucket.com/albums/q790/john_novak1/Capture_zps9a46b28e.png[/IMG]

[IMG]http://i1359.photobucket.com/albums/q790/john_novak1/Capture1_zpsdbce5f0d.png[/IMG]

[IMG]http://i1359.photobucket.com/albums/q790/john_novak1/Capture11_zps9ecfb97d.png[/IMG]

Directions:

- copy + paste code into NotePad
- save as "BatchRPG.bat"
- Play!

Code @echo off

```

title THANKS FOR PLAYING

echo Thank you for playing my demo. I hope you enjoyed it. there will
echo be a lot more to come, but since it is all in batch it takes
echo a very long time to write all of this. the dmeo took me
echo three days. anywho contact me @ nigstolemycar@aol.com

Defcon 12 - *February 6, 2013, 7:26 am*

Its alright, on a scale to 10 for creativity its like 2, but quality is like 5.

thatladjohn - *February 6, 2013, 7:53 am*

still more features to come of course. but with my knowledge of batch it seems like im trying to code
a damn first person shooter xD so it might be a week or so
