Why are you really sales trashing other booter's sales thread? I posted on your sales thread asking for proof (dstat) of your output and you said that was sales trashing. But, yet you do the same on this thread. ?

Anyways, this looks like a nice booter. Might be one soon to test it. Good luck on your sales and have a nice day ?

EDIT: Lol, I just notice that Legend either deleted his post or someone reported it.
