UPDATE: I will be inactive for the next few days, when I get a chance to choose winners I will. Yes, it is hard to believe I have a life too. Each PM I get requesting the winners to be posted or asking when they will be, will be blacklisted and their application will be ignored. Stay patient.

So if you don't win this time, don't worry, you can always try to win the next time around! If we would like to enter for the LR head donation but already have the award, can we enter for the money still if we use it to donate for the RB award?

No, this is strictly for the LR Head donation for members who don't have it.

I'll be making a single l33t member ub3r if you can prove that you're cool and edgy enough.

What prize you want/deserve: I would absolutely love to win the "normal --> l33t" upgrade.

Why you want it/deserve it: I want a normal to l33t upgrade to look more professional regarding my designing services and be one step closer to becoming ub3r here on HackForums. I've been here for a while now and have learned a lot and tried to contribute all I can. You may see some of my threads where I've given away avatars, other graphics, a few dollars, and Facebook likes. It's not much, but it's something.

Good luck to everyone else who decides to enter.

Kentucky's Signature Space for 2 weeks

Why you want it/deserve it:

I plan on doing some free/new projects that I wan't to share with new members, But it is hard for

these new members to find these products as the the thread will not stay on the front page for them to see it. I plan to use his signature space to advertise these new products and hopefully the new(er) members will be able to find them.

I try to do my fair share(and more) for the community and I may not be from 2009 and have 1000+ rep but I try my hardest and the best reward to me is knowing I made someones life a little bit better.

What prize you want/deserve: L33T Upgrade

Why you want it/deserve it: Well, I know I'm new to the website, but I try as much as possible to help members with small free services.

I plan to stay for a long time on the website and this upgrade could help me enjoy it more and benefit of the new advantages of being upgraded.

Here are some example of contributions I offer for every members of HackForums :

<https://hackforums.net/showthread.php?tid=3241990>

<https://hackforums.net/showthread.php?tid=3241231>

And I plan do do much more. At the moment, I'm making a tutorial about decompilation with WinDASM and OllyDbg. This forum looks pretty sick, that's why I plan to stay for a while. I already met many awesome members and I just joined yesterday :)

I also try to post often on threads to try to help people with their problems. If you check out my posts, I think I never didn't tried to help the member who had problems. I'm also coding some new things in C# that I will post in the C# section, as I think this section is "dead".. Not many new things happens and I'll be there to try to restore it.

Thanks alot for reading my application, this is much appreciated and I wish the best luck to all competitors. Samething to every members who contributed for this contest, I'm sure everybody appreciate it, as much as me.

Thanks for making this forum even better.

Best Regards,
Dan.

What prize you want/deserve: LR Head Donation (\$20 LR to Omni)

Why you want it/deserve it: I would like to win this award as I have been wanting to donate towards the site but have never been able to do so due to financial or some other reasons. I do my best everyday to help out the site by helping out the members which need help, in addition to that I report a lot of posts on daily basis to keep the site clean and smooth so it can be the way as it was supposed to be when rules were initially made. Most of my posts I make are in the ewhoring section helping out the newbies with the methods that are needed to get them started in the field, also I have made a few giveaways in the ewhoring section which have helped many members here. In the end I would like to say a big thanks to The Empire for holding this giveaway and good-luck to everyone who is going to apply here, thank you.

What prize you want/deserve: Xbox LIVE 3 Month Code

Why you want it/deserve it: I believe I deserve to win the Xbox code because I have been here on the site for quite some time and I have always done my best to constantly help people with anything they needed. I have also always tried my best to promote a positive atmosphere on the site. I have contributed as much as I could by giving away any extra things I had. In addition, I would really benefit from winning the code since I am completely broke and have no source of income to purchase a 3 month code.

Thank you to The Empire for hosting this contest, and thank you to Connected for donating the Xbox LIVE 3 Month code. Best of luck to all participants :).

What prize you want/deserve: I33t upgrade.

Why you want it/deserve it: I have recently started to enter in the upgrade contests because I knew back then I did not deserve any of upgrades as I was not active on Hf, but slowly now I have started to give back to Hf. I believe in quality not quantity so I post rarely but I post quality stuff + I have 0%

warning level. I am always HQ and always have tried to keep Hf staff alarmed by reporting a few posts as well. Right now, I must say I have a long way to go, but on my way I have given a little to hackforums as well. I post fresh socks and proxies almost everyday continuously. I have done a few HQ giveaways as well and I plan on doing a lot more. Right I have been working on twitter bots and soon plan on giving away free followers.

I have also done a few giveaways such as [Giveaway #1](#) & [Giveaway #2](#) & [Giveaway #3](#) & [Giveaway #4](#).

In the end you are the one to decide if I deserve this or not either way I will keep contributing. Cheers.

Why you want it/deserve it: I really would enjoy this award/donation. Why? I would first enjoy this donation because i feel like i've worked hard, contributed, been a high quality member. Not as the best as others, but i've still tried my best to that. I am not the best user here, but i've for sure tried my best and still going to try my best to that name. I've done a few donations, few giveaways, 1000+ good quality posts, not everyone has enjoyed my stay here but people do enjoy knowing i am here. I've contributed, but i love contributions back in my name. I feel like i would gain more respect. If i don't win this award, i still will donate myself sooner or later. Thank you.

SPOILER

Spoiler ([Click to View](#))

Application

Name

PhazeDevelopment, otherwise known as Phaze, Phyze, or N0T0R10US in various other communities.

I'm 16 years old and I live in the USA.

Contributions to HF

I'll straight up say I'm a poor fellow, but I pride myself on intuition and natural intellect.

I've helped 2 - 3 people with their homework problems (mostly math) and also contributed to various social/political/religious debates.

Here's a few examples:

<https://hackforums.net/showthread.php?tid=3179190> - I replied with the best answer to this thread.

<https://hackforums.net/showthread.php?tid=3230037> - Utilized physics to best explain my answer.

I try to extend as much knowledge as I can to members.

<https://hackforums.net/showthread.php?tid=3180226> - First of my Brain-teaser series. I'm still concocting a harder riddle for the next one.

<https://hackforums.net/showthread.php?tid=3093512> - Answered the question here.

A Bit About Me

I'm an avid forum lurker, and I love to debate. I spend my time in the Science section as it is my strongest area.

I attend a STEM school (Science, Technology, Engineering, and Mathematics), so my grasp on current events is quite strong.

I'm 5'7 and 120lbs. I run track on a normal basis and play basketball for a rec team.

This summer, I'll be interning for Microsoft as a web-developer in my home town (my dad's friend works for MS, so he introduced me to him).

Why I Want To Be L33T

As it's pretty obvious, being a normal user is hard in the matter of getting your point across. People see that you're just a normal member and automatically disregard your post. As I've said before, I love to debate and contribute to the community with my knowledge, and being a L33T user would definitely help me with this.

Being that I'm flat out broke since I'm in High School, I can't buy L33T myself.

I've also never negatively contributed to the community, and I pride myself on my correct use of English in all my posts :)

As a L33T, I'll try my best to contribute as much knowledge as I can to the community out here. I love to share my findings and thoughts, but they're hardly noticed when I'm just a regular user. My goals are to become one of the leading members in Philosophy and the Sciences.

Anything Else

I've never been warned and I probably won't be either. I spend my time in the Science section so I doubt I'll be warned for posting my well-researched opinions.
I also have no negative rep at all.

Thank You,
PhazeDevelopment

What prize you want/deserve: Upgrade to UB3R.

Why you want it/deserve it: I feel I deserve UB3R for many reasons. I have a few skills, which I use to contribute to the community with. I don't have the money as of right now, as things are currently difficult in my household.

Computer Hardware - I feel am I very knowledgeable and known on this subject in the COCH section. I have proven my worth, making many builds, and contributing in helping others with their computer problems. I have built my own pc before, and know a lot of general knowledge on computers, along with specific things such as a processor.

Gaming - I deem myself as a pro gamer in a way. I play games like counter strike, and I participate in things such as ESEA. Any game that's thrown at me, I can learn very quickly and help others.

Helping others - I'm a very understandable person, and I do not judge, no matter what a person has gone through. I tend to see myself helping other members with personal problems, as I'm sure we've all been there, and some of us have not had somebody to be there. I help out anyone I can, as I've most likely been in something similar.

What do you want to win?: L33t

Real name: Nicolaj

Age: 15

Country: Denmark

Hobbies: Soccer, gaming and being on HF.

HF name: Theo Walcott

Link to profile: <https://hackforums.net/member.php?action=profile&uid=1607691>

What I have done to help the community:

I have made alot of giveaways, and giving away a steam cracker including a steam cfg. And I have also done alot of other giveaways like, Netflix, Steam accounts with good games, and some other. And I have tried to make some signatures and userbar for groups but i'm not that good, but I still gave it a try. I also crypt files for very cheap price, and try to help other members as much as I can.

Why I do deserve to be upgraded to l33t:

If i'll get l33t I will probably keep what i'm doing and make some good giveaways for other HF members.

And I will not abuse those extra functions that you get as L33t.

I'm also a very active member on HF and try to be online as much as I can.

And some examples of my HQ posts:

<https://hackforums.net/showthread.php?tid=3145174>

<https://hackforums.net/showthread.php?tid=3201147>

<https://hackforums.net/showthread.php?tid=3200485>

<https://hackforums.net/showthread.php?tid=3139290>

<https://hackforums.net/showthread.php?tid=3205706>

Why I do want to be l33t?

As L33t you got many more futures than a regular member, and I always wanted to give som green apples to people who are really HQ, and who deserves it. I also wanted this l33t to get a nice signature, closing own threads and other stuff like getting awards, and that's the reason why I want to get l33t.

I got 20% warning level because of some black hat stuff, I think its because I didn't know that it was not allowed to make Minecraft giveaways, but yeah I know its not allowed now and I have read the rules.

Anyways this will expire 03-05-2013.

Also I would like to say thanks to 143 and Special one for doing this upgrade contest I have seen alot good stuff from you guys!

Best regards Theo Walcott

What prize you want/deserve: Prize number 3 (LR Head Donation)

Why you want it/deserve it: I feel as though I deserve it because I am a very active and helpful member. I am active in almost all of my main sections. Just look to my post count. Anime Adventures has most of my posts because I love anime and I am a very talkative person. So of course when there is a section specifically made for a subject I love I am keen to being very active there. Looking past the lounge (teehee) my next most active section is beginner hacking where I help alot of members with basic hacking such as SQLi, XSS, RFI, LFI, and of course what most members want rat help / support. I am a very kind person and I think if you talked to me you would reach the same consensus. I am not sure what classifies someone as HQ, so you will never here me call myself such. However, I do think that I am an attribute to HF in general and would love to win such an award. Whether I win or not I thank you for the opportunity to enter and wish everyone the best of luck in this awesome competition.

Nevertheless, I believe I deserve this prize, because I've over the couple of last weeks been really active on this forum, attempting to help, and share experience that I've got. I want this prize so I can eventually open a Netflix shop, and maybe earn some money. I am currently saving up for a puppy, so that would be a great addition towards getting one!(by selling the accounts, fairly cheap). Again, thanks for doing this give-away, it is highly appreciated.

What prize you want/deserve: L33t to UB3R Upgrade

Why you want it/deserve it:

I believe I deserve the "L33t to UB3R Upgrade" because of my experience with this forum and my dedication to it. With UB3R, I will dedicate more time than I already do and contribute a lot of my time. As much as I'm on Hack Forums, I feel as I don't contribute the most. Being ed to UB3R will make a HUGE difference in the level of confidence and level I would be at. As a UB3R, I will post very informative and productive threads. This may be anywhere from tutorials to helpful threads. My main sections that I will dedicate my posting to will be The Lounge, the Minecraft Section, Monetizing section, and the Hacking section. Coding is my weakness, but I will do anything to contribute to this forum. I have a life in general, but Hack Forums definately has helped. Why do I deserve UB3R? I am well-fitted and I know the way it works. I know how to get along with others. I know how to stay clean and trusted. I don't have any problems with members. People tend to like me for my personality. Thank you SO much for this opportunity and I wish everyone else the best.

Why you want it/deserve it: I honestly think I don't deserve, but would really like to receive it. I am new to this forum, but so far am in love with it. I think in a sense I deserve this upgrade because I have literally never scammed a person on a forums like this. I am responsible, and love to help out the community as much as I can, but at the moment because of college and rent am unable to support the forums I love and cherish so much. What prize you want/deserve: Froggy's 30 Min Conversation

Why you want it/deserve it: I seen Froggy around a lot and I think she is pretty chill. I was going to choose the fansign, but I feel like the conversation would be more fun :P. Basically I want to get to know more members, especially the popular ones :D.

Nice giveaway as a whole by the way!

What prize you want/deserve: LR Head

Why you want it/deserve it: I feel I deserve this prize because I'm always here to help the forum and users. I will help all of the new users no matter how stupid the questions. I like to spend my spare time making guides to help Hack Forums members. I have to admit I do like awards but I don't really have the spare money to spend on awards. I hope you take my post into consideration and goodluck to everyone.

What prize you want/deserve: LR Head Donation (\$20 LR to Omni)

Why you want it/deserve it: I want this award/donation because it is an extra \$20 in Omniscient's pockets that he did not have before. I was permanently denied UB3R in December, so I'd like to, in a way, get him something else. I have slowly wanted to become more high quality here on HF and I believe I am getting there. I used to be one of the worst members here, constantly flaming and

trolling, but I realized that was getting me nowhere. I had to change. This award would be a decent reward for how much I have changed my act here on HF. I went from being hated to being adored by many. After all of the effort that I have put in so far, I believe I deserve a little treat. I would write a longer sob story, but I don't want to have to write a fairytale.

What prize you want/deserve:

1. 3 normal -> l33t Upgrades

Why you want it/deserve it:

I signed up for HF quite a while ago, but it wasn't until recently that I began paying attention to the posts of others and I realized how great of a community that HF really is. I don't have the money to donate for L33t, and so I would genuinely love to win an upgrade for it. I believe that it will help me become a more trusted and known member, which will help me after I release a few tutorials and sweet stuff that I'm currently working on. Becoming a L33t member will motivate me to only produce higher quality work. But most important, I believe in giving back to those who have been kind to you. If I ever become successful and make some money through HF, I will definitely remember Empire so I can give back for what they have given me.

What prize you want/deserve:

Why you want it/deserve it: I've been wanting this for months now and haven't really had the purpose of upgrading..

I've noticed HF members with upgraded accounts get a huge amount of respect for donating. But i don't come here to get respect.. all i want is a chance

for other HF Members to notice what i've been doing for the past Months i've been on HF, hopefully doors will open in the future for me.. i continue being as much help as i can. 87% of my posts are helpful ones, no guides yet.. but soon too come & hopefully also L33T. Everyday i try my best on helping members, i don't expect anything out of helping but a job-well done, i choice on wether to help or not. & i noticed i choosed a fantastic path on being a White Hat Helper, it's amazing. This is my entry i hope you all like it. I'm just really happy to be here on HF

I'll continue to do my best even if i don't win, i'm just happy to be here on HF, helping other members out it's a great oppertunity.

Thanks KyleWTF, And others Empire Members For letting this opportunity open up for us. We on HF thanks The Empire 1000s

What prize you want/deserve: I would like to have the normal -> l33t upgrade.

Why you want it/deserve it: I know that I deserve the normal to l33t upgrade because as the rank "l33t" I could contribute more to the forums, I also deserve it because I have been a hackforums member for a long time, I have viewed and used many things created in this forum, and in many cases taken it to heart and used it in life to have a greater lasting impression on people in real life. With tools here, I have contributed to the good of many people and also spent money and supporting people - and buying their products and in some cases giving extra. I also look forward to buy/donate more money, as it comes in for me. As a l33t rank, I could do all these things quicker and more beneficently.

What prize you want/deserve: "normal ---> L33t" upgrade

Why you want it/deserve it: I try to be a high quality member here on HF. I've been here for a long time and have contributed to the community (My Instagram Bot.) I could make a nice signature for this bot and try to put some money in my paypal. I'm right around 40 cents and i think people are attracted more to nice, picture signature. Picking me might not seem much of a big deal to you, but for me, i could start a whole new branch in the community, and a business.

Good luck to everyone to enter's this contest and I appreciate KyleWTF for hosting this contest.

Why you want it/deserve it: Well usually I don't like to nominate myself.

I would like this prize to donate to HF because HF gave me so much.

I've already donated \$20 to HackForums due to another contest.

Well, I can't tell you why I'm deserving it or not because I don't like but I know I have made some good contributions to HF.

Thanks to all members who put some prizes.

Especially thanks to KyleWTF for hosting the thread and making it neat and beautiful and to Sultan. who is offering the \$20 LR Head Award.

I wish the best for The Empire also.

What prize you want/deserve: LR Head Donation

[img]<http://cdn2.hackforums.net/uploads/awards/liberty-reserve.png>[/img]

Why you want it/deserve it: I want it because awards really make me happy. I also want to win it because I can't afford to donate that much amount I don't even have any money in my LR ever since I created it. I don't know if I deserve it only you and other people know if I deserve it, But mainly I want it because I want to help HF stay more longer and become better. I also want to show that I like HF that much and encourage everybody to help HF become better too. I try to do my best to contribute to HF without spending anything.

Some of my contributions that can help HF members.

What prize you want/deserve: I would be extremely happy if I got number 2 or # 16, I've never met

the user Froggy ?

Why you want it/deserve it:

Oh phew, well I did just finish my Regular member to L33T upgrade when I could have easily upgraded myself to Ub3R instead. I felt like giving back to the community who has given me so much already. I plan to do future upgrades for more regular --> l33t Upgrades regularly. I will be hosting a few more special giveaways like a few 50\$ ones in the upcoming month. Yeah, in all reality I could upgrade myself to Ub3R, but for me that feels untimely and selfish. I'm a very caring member, who would never abuse such power, also to note I have been accepted to Ub3R since my post count was 280. (No big deal, just wanted to point out that is fairly low ;)) It is my pleasure to do any of these contests and I will be contributing plenty more in the near future. Also here is the link to my latest thread of the upgrade giveaway. <https://hackforums.net/showthread.php?tid=3240651> (I know I should work on that thread design.) On the side note, I will be applying for The Empire once more... better watch out, I'm coming with my best application ever. I'm going to give it all! Alright, enough gibbering from me and I HIGHLY appreciate the opportunity.

Also, I would like to speak with Froggy, he is a very interesting user here. Very powerful and I would just like to chill out, have an interesting conversation. I don't know, would seem like fun ?

Thanks for the giveaway and everyone who has contributed. Hopefully I can soon :D

What prize you want/deserve: 200k Coins for OMGPOP + Level 100

Why you want it/deserve it:

I've done my best to help out fellow HF members on this site - here is just a small view of my giveaways -<https://hackforums.net/showthread.php?tid=3025382>
<https://hackforums.net/showthread.php?tid=2990764>

Small or not it's me contributing back to the forums. I'm doing what I can do and giving what I can give. I'm

a complete fanatic over OMGPOP games. I play the games there quite often as my girlfriend is a fanatic as well.

This amount of OMGPOP coins will allow me to completely customize my Ballono character just the way I want it + getting leveled to 100 just sounds awesome (28 or so, so far.) But sorry for straying. I feel I deserve it because I've tried my best to be an outstanding member. Oddly enough I'll probably end up losing all the coins to my girlfriend as she always beats me.

Other than that I plan to eventually post coding tutorials and attempt to become a GM Student once I feel I'm at that level.

It may not seem like much as I stated above but I'm trying what I can.

I don't necessarily feel I deserve it. As I feel happy with the responses I got from giving out stuff to those individuals. I just think it'd be something awesome to win.

Why you want it/deserve it: I try to help the most i can when someone needs help!

I post lots of things in the GFX section.

I try really hard to write with nice English, since im Portuguese and English is not my primary language!

I'm from Portugal and currently we have no money, so i couldn't afford to buy l33t.

I've given away a few things, currently making a contest and i think i'm a nice member!

Ahhhh, and i try to make my threads and posts look nice, i love design and stuff!

(Thanks OP for this huge giveaway!)

What prize you want/deserve: Normal > L33T upgrade.

Why you want it/deserve it: I personally believe I deserve this upgrade because I've earned it. Though I may not have posted threads giving people prizes or stuff like that, I have been helpful and making both Graphic Designs for others and really socialized with the community, I'd be fun having that colored name instead of the usually white.. I haven't made much money online from providing my services because I was always saving up for one of those 'E-books' to make more money, I haven't gotten one yet but I think getting L33T might help me get a trust-able and respectable reputation so people might actually pay me for my services.

Does this end as soon as it hits the 14th?

KyleWTF - February 13, 2013, 3:03 pm

Er, not really. On the 14th I will close this thread, and the results will be posted on the 16th.
Fair enough.

Like 30 people applied for your award, sure you don't want to personally choose one of them?

What prize you want/deserve: I would like the Spotify Premium Method.

Why you want it/deserve it: I would really like this because today, February 13th, is actually my birthday! And furthermore, I could definitely put this method to good use. I use Spotify all the time, and love the service. I would really like being able to get premium! And, probably most important, I have a teacher who has helped me through thick and thin. If I could get him Spotify Premium, I think it would be a good way to repay him (He puts on Spotify all the time in class).

Thanks so much for the giveaway, and best of luck to all!

What prize you want/deserve: The first one. normal -> I33t Upgrade

Why you want it/deserve it: I've been here for half year and love this community. I've learnt a lot of things, this includes from hacking to social stuff. I would like to help the community especially on minecraft stuff and on real stuff (I'm on grieving sub-forum and like reading posts on innuendo) Since

i registered, i have always wanted to be a l33t user, not because you can edit your posts or put an image on the signature. It's the fact i want to donate to HF but i don't have a credit card, just a debit card but i can't buy online stuff with this one /: When i joined this community, i began to flame to someone and got neg repped, i learnt from my mistake and now i'm trying to help others when i'm able to. I'm not from USA so i can't pay someone in real life to buy me l33t. Even if i don't win this contest, i will try to be more HQ and find someone in real life to buy me l33t.

When you will you choose winners =]??

KyleWTF - February 17, 2013, 10:24 am

PDATE: I will be inactive for the next few days, when I get a chance to choose winners I will. Yes, it is hard to believe I have a life too. Each PM I get requesting the winners to be posted or asking when they will be, will be blacklisted and their application will be ignored. Stay patient.
