Lol :P Never thought of it in that way, don't worry, I'm not racist :)

Btw, are you Danish?

I also believe when clicking another tab it redirects the page to a fresh page. Just wanted to point that out, Good luck with the forum. Other than that, A clean website.

Yeah, I know that. It's the plugin that does that, I couldn't find any other "tab" plugins.

Thank you sir.

Even though this post is most likely a joke, he does have a good point. Having a doman like that could potentially drive away some people. Consider this situation:

Someone is just browsing the Internet and then sees your website url, he doesn't click it because he thinks it's some type of white hick hate forum.

You may want to change that, but other than the url your site looks great!

Hmm, thats true.. But I haven't got the money to change the URL now. I may change it when I get money for it ?

Thank you sir.

I'm interesting in joining. It's just my opinion, but I don't think a white theme looks all that great. You should consider maybe making it a darker color, with white text. It hurts my eyes when I open the page.

BT22 - February 9, 2013, 4:55 pm

I personally do not like the design the header is at like 75% width and the reast is at like 90% width it makes it ugly the colors are pretty painful on the eyes

i do not like the fact that u have a marketplace,gaming, and upgraded members

you chosen the niche as "White hat forum" so you should keep it purely to that it makes the site look bad when throwing uneccisary section at it.

As a fellow white hat and a fan of what you did by making this site I will sign up I hope the best for you and your site good luck man.

baka~ - February 9, 2013, 5:05 pm

Alright guys, I will be changing the layout tomorrow! :P
@Chipher - Thank you so much man.

? **?Shiro** - February 9, 2013, 6:40 pm

Bam sun i already upgraded on your site hope I can help and good luck!

baka~ - February 9, 2013, 9:16 pm

Still looking for members, just updated the theme and more.

I once signed up on a white hat hacking forum and the forum was hacked we all lost our current passwords and email accounts. Can you possibly assure me that this forum will never be targeted for hacking and all user info will be safe?

I can't promise anything because you never know if some bastard is bored and targets my site... But I won't make enemies with anyone, that's the only thing I can promise you. I also do anything I can to keep the forum safe.

Okay say someone does hack it, what is in place to protect users info?

I will be changing the admin login page tomorrow + I will install Php-Firewall that works against injections. All this will be added tomorrow as I'm going to bed soon.

v11 - February 9, 2013, 9:33 pm

Okay I will join the site and check out the community.

I know you're going to hate this.... but legit so much white my eyes started to hurt. I'm a huge supporter of security sites and if you're looking for another domain I can redirect to you, let me know.
