Noticed there's a bunch of VN and Eroge talk going on right now, so I thought I'd educate you guys a little. Use this site to play oldschool VN's and have some fun: <http://tss.asenheim.org/>

All in browser to which is freaking awesome.

Anyway, best one there by far is True Love. Let's get some discussions going and see where people get too.

If you visit the site, it says it is a Visual Novel.

Site looks interesting, thanks OP.

VN = visual novel
Visual novel = interactive novel

That's pretty much it, though this is a eroge which is basically a porn version of a VN.

Happeh - February 11, 2013, 4:45 am

Because nobody likes the game Huppah it looks like something a oldfags will play.

Aeri Tyaelaria - February 11, 2013, 8:21 am

Looks like Sailor moon hentai.

I'm in!

Honestly, I'm glad I'm an oldfag and play these games. From what I can tell, most of the newbies here are pretty shitty and are offering nothing but shite to AA.

Post some screenies! Wanna actually see if people start playing and how far people are getting. It's definitely not lengthy like most other VN's and is quite fun to make your character awesome.

Aeri Tyaelaria - February 11, 2013, 11:42 am

Gah didn't manage to get screenies. but I more or less got far. I slept with 4 of the girls and had Max passion, strength, appearance and studies with 110/120 art skill. I was kind of bored at the end when you get given a "big choice" which actually blew me away. But it made me laugh since I decided to go with the "I LOVE YOU TO" option to have the game go "But...all those girls..? Ah well I am happy now". I was hoping to get it on with the Swimming girl since I trained and got on uber well with her but after awhile she sorta, stopped popping up... Plus I wanted to get on Miss Yumi but same thing.

SPOILERS;

Spoiler [\(Click to View\)](#) One of the endings (the one I picked for the lols) is when that Kenni guy who shows you the swimming club pervert hole if you pay him 3000Yen actually tells you he's gay and has fancied you for ages. I put "I LOVE YOU TO" just to see what'd happen and yea.

Spoiler [\(Click to View\)](#) If you go for every girl and you rescue Remi on the 27th while doing the birthday on the 28th, can someone tell me what happens if you tell the truth to Mika? I told a lie and she shouted at me and ran off. QQ

Spoiler ([Click to View](#)) get all your skills (minus fatigue) to about 110 before the Festival! The game will reward you for beating Kenni's game and it really pushes your stats high for it based on what they are currently. So doing this really helps

Also anyone who tells me how to get Miss Yumi and if it's actually worth it gets over 9,000 points.

Problem with Yumi is you have to do all of Mayumi's route, then find her walking around drunk sometime in September when you pick pleasure. After that you get to do the roodie-doodie with her.

EDIT: I also choose to go with the dude. :3 I thought: "What the hell!"

My thoughts. Actually I was curious to see if they'd shoe horned Yaoi in but alas, they didn't xD;

And I see.. So that's art shit. Dang. Oh well, is it really worth it? If not I cba to re-do the game. It took me AGES to get passed day 10 because it kept crashing or looping itself, plus the calender is bugged to shit.

Not sure if the calendar was supposed to do much, but if you take back a decision and want to go back, shift-and left-click, his like going back.

It's worth to do all of them, but the game is complex as shit and there's huge amount of routes, so it's up to you. It's fun to see though. :3 Oh boy, them H-scenes too.

Probably true, same with Evangelion and Akira and many other great anime's too. All too old.

Shame because this games actually pretty interesting.

Reminds me of a few days ago in class when I heard some of my class mates talking about anime, decided to join in and the topic was on classic anime and I mentioned evangelion and showed off my NERV custom theme on my tablet, only one of them knew what it was and he remembered it as "that old anime". They then went on about how naruto is a classic and shitting on one piece. Wut. Now I don't care that they like naruto, but calling it a classic...seriously what the fuck.

Anyway I'm not playing this as I have a few big essays due soon and my internet is horrible slow.

Oddly, Me and my Best friend (Or as I call her my Waifuu) loved them. She plays longer on things with "old graphics" or what I would call "Sailor Moon Style Graphics". I have to say although they are dated there is still a certain charm to them. I think the problem is the style appeals to girls more than it does to guys, where as things like Hellsing tend to appeal to guys due to the darker graphics y'know?
