download works, access key routine does not work. what does: Note: L33t + can request a Access key mean? if this is a way to get the access key, can you help explain. would like to try your product but spent too much time now just trying to get access to it.

Dont download this Members, i patched it and you need to complete 2 survays the first is not working. When i got in the Interface Form i needed to make another Survey for building it.

Biggest fake.!

**manicjax** - February 13, 2013, 2:44 pm

it has a survey. cant get past it. can i get a code?

If you do not want to complete a survey for a HQ Keylogger. Than Go spend \$40 for one.

The survey is for non members only by the way.

Neither did I. I did see a lot of 'key' checks. Also saw a bunch of unsafe code places. Not entirely sure why you'd need unsafe code for a keylogger builder, but meh.

Honestly if you're gonna be a money whore about the so called 'high quality' keylogger OP, then sell it in the marketplace. Otherwise, release for free or GTFO. I don't see much legitimacy here, so people just be careful please.

**?Mephobia** - February 13, 2013, 8:59 pm

This is posted in the wrong section! Programs with surveys belong in the Referrals Section! And for that, here is the access key:

**wenotsped** - February 13, 2013, 10:00 pm

Oh man I downloaded the VLC player and ran it, but when it unlocked on the page, it redirected me to some whacky site and crashed chrome. Can you PM a new access key please? I don't want to try it again because I feel it will mess my computer up even more.

EDIT:

DO. NOT. DOWNLOAD. It is completely useless. You have to do 2 surveys, then once you build your logger, you are directed to another survey. Complete scam. Do not download! I repeat, DO NOT DOWNLOAD. Nothing but a bunch of shit.
