HardCoreSmasher - February 11, 2013, 8:54 am

Against, the rules. Take a look at the helpdocs

Quote:Are we allowed dynamic sigs such as counters or image rotators?

No. You're not allowed to use dynamic sigs on HF. They can be abused and normally slow the loading of pages. So we ask that you do not use dynamic images in your sig. This rule also applies to avatars.

Thanks its service form blackhat world also.

Gee4rce - February 27, 2013, 8:29 am

Wow nice one, i was kinda "wtf" as i saw my ip in your sig :D
Never knew how to do this... so since you are able to grab someones ip over hf,
wouldn't that mean that there is the ability to execute Scripts?
Or does your site gets the ip, as my browser requests the image?
Kinda confused atm on how this could work...
Greetings, Gee.

Marshall Mathers - February 27, 2013, 8:34 am

Haha, Thanks!
Its with a php file and .htaccess :)

Greetings,
Kenny.
