kingakife - February 12, 2013, 9:42 am

smalll chest tho, jk

I hate that face, the shy face

Liquified™ - February 12, 2013, 9:44 am

Sorry for being off topic, but what the fuck is a "Waifu" and why do you have a pillow with a half naked teenage asian girl on it?

Cystomatic - February 12, 2013, 9:56 am

Mai Waifu (English for "My Wife") is a popular catchphrase based on a scene from the high school anime Azumanga Daioh. While the term "Mai Waifu" is often used in Asian cultures as a casual reference to one's spouse in conversations, it's been also adopted by otaku circles and anime fans when discussing one's favorite manga & anime character.

And that half naked teenage asian girl is his waifu :p

This isn't the weird side of HackForums. This is one of the funniest thread because most of the posters here don't know what is this thread all about. I'm happy for you and your wife. I just hope that you don't make her cook because she'll get on fire. I also hope that you wash her from time to time because of the possibility of your wife smelling like cum.

Some people aren't that turned on by the loud, squalling, makeup covered sluts people deem as ladies nowadays. Some people would rather a fantasy girl over RL girls who either aren't worth the bother or who's goal in life is to fuck as many douche-bags as they are able.

Respect that. ?

So, people would rather just look at a pillow all day? That's some anti-social shit right there..

Anti-social people will be anti-social regardless. Thank god we live in an age where people are free to make that choice themselves. Yeah they are missing out on some cool things life has to offer but if they choose not to then its not our place to tease or ridicule them for it. ^^

Mai Waifu means My wife.
Also that's a pillow, not furniture.
Definition of Furniture: "Large movable equipment, such as tables and chairs, used to make a house, office, or other space suitable for living or working."

SkullTraill - February 13, 2013, 11:30 am

That.. is kinda sad.... what would you say if you brought a girl back home and she asked you what this was? Posters and all that are ok and tbh pretty cool but this... oh well I'm not here to hate KTHXBAI

Also it isn't healthy to pretend you're married to a pillow with a drawing on it.

It's very JustinRPG/Asperger Syndrome if you ask me.

I reckon it's just for having fun, not taking stuff too seriously. As some may known, there are three types of "mai waifu" people. I bet he is part of the "I say it for shitz and giggles" type. Also, why Asperger Syndrome?

I mean, at least ours involve attractive women, even if they are 2D and pure fantasy. It attributes to our heterosexuality.

When I first saw the thread title I had no idea what a "waifu" was - did some research...

After seeing the image I laughed so damn hard.

No offense intended.

I wouldn't put up a signature mindlessly without having any idea of what it is or conveys. She's Rea from Sankarea.

I may not be much into anime, but I do watch it as a hobby; however I can't stop being amazed at how far people take Japanese cartoons and their souvenirs - it's amusing me.

Irrelevant? The thread is merely OP showing off his "waifu" while others are allowed to comment freely their opinions on it.

You can probably tell mine from what I posted above but nonetheless I shall not be disrespectful to what people find enjoyable...
