ShadowByte - February 12, 2013, 12:43 pm

Many call me ShadowByte, or just Shadow. I'm a pen-tester who loves to exploit networks. I've spent many hours behind a computer screen reading and learning how to exploit web-applications, and etc. I'm willing to teach a member. Just add me on skype. I will write down my experiences below.

Skype:
shadow.byte

Programming Experience:

HTML
DHTML
HTML5
CSS
CSS3
JavaScript(jQuery)
PHP(MySQL)
Java
Perl

Hacking Experience:

Doxing
DDoSing
RATTING
SQLi
XSS
RFI's
LFI's
Social Engineering

And multiple years of experience.

All I ask is that you add me on skype, and send me a message. :D

Thanks for the vouch! I appreciate it. Yes, anyone who needs help just hit me up on skype. I will try to be of assistance, my specialty is SQLi.

MONsTER - February 13, 2013, 6:21 am

Hey I would really like to learn more! I will send you a contact request on skype! :D Thanks

Aura - February 13, 2013, 6:35 am

If you're legit, that's a great service you offer to the new users there ...

Squeak - February 13, 2013, 6:42 am

Are you serious? Since when is DDosing hacking.

Son_Of_Diablo - February 13, 2013, 6:43 am

I have added you on skype :)

Just waiting now :P

Many thanks for doing this! I really hope you can learn me how to do these things ^^

Thanks my good sir! ?

MONsTER - February 13, 2013, 7:20 am

Vouch! Awesome guy! really knows what he's talking about! Thanks for taking the time to help me!!

It is. Just because you buy "booters" and can't develop your own tools, and upload you own shells, doesn't mean that no one can't.

When you do it from scratch, yeah i pretty much think it should be considered hacking, as it requires knowledge on packets and networking.

Is there any money to this or no? Because, i will pay but as you have experience, i am scared that u will hack me

PM me to talk more about it

Sherl - December 18, 2016, 11:56 am

I sent a message on skype I hope you teach me some of what you know, I will be greatly appreciative

Cordell17 - December 18, 2016, 3:49 pm

I think i've added you not sure though since they're many shadow.byte's

Please don't grave dig threads.

We recommend you take the time to read the [HF Help Documents](#) section. The answer to your questions should be contained in there.
