No need to talk with you, just requesting the fake vouch in first post to be removed or action will be taken.

MOD3RN himself told me it was fake and will also agree to this to admin in 24 hours. Press purple arrow, also I'm done reading reply.

Vouch for Razzle. I wanted IRTL's stealer and I contacted and I was told I had no friends and needed a life. I contacted Razzle smoothest translation possible. I <3 Razzle.

I vouch for him because I had trouble setting it up (I know that sounds weird, but I did) and he helped me out no problems asked. Very good program and I can't wait for next release. Also, thanks for using my idea (custom smtp server). :)
