First off, I sell cocaine.

The police will never find me.

I'll just smoke my weed, please don't mind me.

And yeah, I will commit murder if a nigga ever tries me.

Money makes the world go around, but doesn't grow on trees.

I used to run the lounge while on LSD.

Yeah nigga, it's New York the ban evader. You'll never take me out of these HF streets.

I had so many multiple accounts at the same time, Ub3r and L33t.

Suck my dick. Flips middle finger to the staff.

These new Ub3r members reply to my troll threads, I just fucking laugh.

I'll uncover your life story with the help of a silent java drive-by.

I can ruin your life in the blink of an eye, guy.

I keep choppers in my attic, bro, I own about five.

I'll sell you drugs, but snitch on me and you'll go bye-bye. FBI knocks on my door nukes the harddrive

Mess with me and I would either kill you, or get ya killed.

RuneScape skids try to boot me offline, pfft, go back to your guild.

My botnet is cold, it keeps your spinal cord chilled.

I'll put your traffic on halt, yeah I'm bitter like salt.

SWAT kicks your door down and killed your dog. Oopps! Bitch nigga that was my fault.

Never been a white hat, I'm a black hat hacker.

Credit card fraud is my specialty, I've never been a slacker.

Fuck a low wage job, New York aspires to stack paper like Hewlett Packard.

Freestyled this shit and I ain't even a rapper.

? tell me wat u think, dis is just practice, i wrtoe it in like 5 minutes after smokin a blunt ..
