Vouches

(Jan 1, 2013 02:40 PM)JavaPortals™ Wrote: [\[CITE\]](#) Brilliant keylogger, incredibly simple, and fast, and easy to use! One question though, how do I 'uninstall' it from a slave machine?

(Dec 22, 2012 01:46 PM)Elements. Wrote: [\[CITE\]](#) Vouch! Legit program! The shitcash is worth it!

(Dec 23, 2012 03:38 AM)H3X4G0N Wrote: [\[CITE\]](#) Great keylogger! Absolutely wonderful, I'm currently keylogging myself to test the keylogger. It's great how the logger runs as taskmgr, you'd never expect it!

Built-in file pumper is also extraordinary.

Best part I'd say is no portforwarding, just setup an FTP account and you're set!

Homi is super HQ, helped me out with everything I needed.

(Dec 26, 2012 08:08 AM)Cazma Wrote: [\[CITE\]](#) This keylogger is really fucking great! Works like a charm :D and the best thing is, almost no anti-virus program will detect it! Sick

Some Other Important PointsDetection Rate can be dropped by using The built in File Pumper, a detailed example is given in the tutorial regarding this.

See The Scan results after pumping 1MB <http://razorscanner.com/result.php?id=4446>

The detection rate has been decreased from 8/35 to 6/37

Just got this and it seems great :)! Just be careful everyone to only scan at trusted places (not virustotal) so that the file can remain FUD for longer! OP please remember to tell this to everyone who is buying!

Wish you the best with the rest of the sales!
