Thread: [\[4/5\] LEADTOOLS LEAD Thumbnail Browser Control ActiveX Control Buffer Overflow](#)

Omniscient - May 21, 2007, 4:59 am

shinnai has discovered a vulnerability in LEADTOOLS LEAD Thumbnail Browser Control ActiveX control, which can be exploited by malicious people to compromise a user's system.

Be sure to check if your system is missing security updates or have insecure applications installed:
http://secunia.com/software_inspector/

Feature Overview - The Secunia Software Inspector:

- Detects insecure versions of applications installed

- Verifies that all Microsoft patches are applied

- Assists you in updating your system and applications

- Runs through your browser. No installation or download is required.
