This thread has been up for just a day.Don't complain that people haven't got any questions.That should be good.

ProtoRug - February 21, 2013, 10:43 am

Let me know some good fonts, other than those straight & serif ones..

Is there anybody else, who wants a Signature Logo etc. ?

CharlieMadsen - February 22, 2013, 7:19 pm

Hello, I would like to ask how you do that "letter pressed effect" that you see in a lot of sales threads.

MineSQL - February 22, 2013, 11:15 pm

I'm looking to do some photo manipulation on faces and stuff, like clearing blemishes, adding more desirable features, ect.
