Thread: [\[RELEASE\] Visual Basic 2008 Keylogger \[RELEASE\]](#)

HippyMeal - March 21, 2010, 6:16 am

Info:

Hey guys HippyMeal just trying to contribute again :D
And Before you rage me its my very first attempt so no mean comments
Now i was on the edge trying to think of what to do here
So i went back to my phishing days and used the same method basically
But went the textbox reaches 1000 characters (You can change it if your smart enough) Then it
sends everything in the textbox to your gmail account, I dunno it might be smart but im very new to
visual and like i said its like my first thing and yeah :) Try to enjoy anyway.

How about some screen shot mate

HippyMeal - March 21, 2010, 6:43 am

Alright ill do that now for you sorry, I accidently posted it and i was in a rush Alright upload speeds a shithead but ill have them up in the morning, I promise you though its not a virus but better safe then sorry is probably what your thinking anyway night :)

Chrztian456 - March 21, 2010, 6:58 am

what can it all do? thats important to ya know?

Joey K - March 21, 2010, 7:00 am

Is this a tutorial?

bebek - March 21, 2010, 7:22 am

i don't understand to use it.
can somebody help me???

JUAN9087™ - March 21, 2010, 8:25 pm

screen shot ? features ? stuff? duhh soz bro but i don't trust this :D

HippyMeal - March 22, 2010, 2:54 am

Haha lol sorry my bad my first release, Alright it's disguised as a chat spammer and what it does is when they open it, It hides itself and records every keystroke they make and send it to your gmail account (only way through vb) now thats why you need to understand a bit of visual basic 2008 first sorry, Ill try release a better thing in the meantime bear with it sorry :D and screenies will be up soon

Breakbeat Junkie - March 22, 2010, 2:58 am

Thanks for the share :)

you could just say a keylogger disguised as a chat spammer right?

btw tnx

HippyMeal - March 28, 2010, 5:11 am

Yeah thats it lol hope you like it it aint the best yet, Still working on it

Agreed. It will help In making an Informed decision :)

imAcarrot - March 28, 2010, 6:14 am

Why don't you add some screenshots?

HippyMeal - April 3, 2010, 12:12 am

I keep getting too busy lol I will try to add screenies as soon as i can escape from teh real worldz lol sorry guys.

Onyx - April 3, 2010, 6:58 am

screenshots? and thanks for share shall take a look

programtesting28 - February 26, 2013, 6:54 am

its very hard to follow, i dont know about vb 6, how about vb.net, its more simple

dbkira96 - February 27, 2014, 12:52 pm

uhm is there anyone who tried it, does this work even in Windows 8 ?

L A Z E R - February 28, 2014, 4:44 am

I wouldnt try it! VIRUS ALEEEEEERT!

hasanalizxc - March 3, 2014, 6:16 am

could you renew the link because it is dead. RIP

SocketSeeker - March 3, 2014, 2:09 pm

It is a grave dug thread. Of course the links are not working.
