Thread: [Would you like to increase your PPD/CPA/ Clickbank / YouTube earnings? Read this NOW!](#)

Phil Dunphy - February 16, 2013, 7:33 pm

Hello guys!

I just made an ebook about a youtube trick that can Skyrocket your CTR from your youtube video. This is new and nobody is teaching this.

So would you like to earn 50% more from your youtube traffic?

Let me know your thoughts about this. I'll probably sell this ebook, what would be a reasonable price?

Marc.

EDIT: You can buy it or check the reviews here:

The price should depend on how effective the method is practically. And to determine that, you should post results/proof of the method working or give it to a pro and trusted reviewer so they can post the results.

Earn 50% more? Hard to believe, I want to see proof and vouch from trusted member like punkHD said.

But if does really work, I would personally sell an eBook like this at a high price.

"Program outdated" trick isn't worth any money. You can't sell it.

What the heck is "program outdated"?

I'm not talking about any method you know.

About 50% more earnings will depend, I'm willing to give this to an elite earner that uses youtube traffic, and ask him for a review.

Already given this to vizion and he love it.

Thanks for your feedback guys, keep em coming

You could give it to me so I can review it. Although I am not an elite earner but I make a steady \$20 a day with one niche :)

I'll be sure to put it to good use and make a review for you :)

+mK - February 17, 2013, 5:41 am

I'll be an Elite earner at the end of this month, if that matters. I can't even imagine anything that will make you gain 50% of your earnings. O.o

Well, I'll wait and give a review to 2 users (you could be one of those) and wait for review, but i'd like an elite earner, i'm sure they'll appreciate this trick much more. because its a trick that makes your conversions increase. if you are just earning 20\$/day, maybe you just increase your earnings 1\$ and told me that this sucks, hope you understand me.

Marc.

Asset - February 17, 2013, 6:00 am

Well, my conversion rates are 10-15%. I could test it and give a review ;)

Phil Dunphy - February 17, 2013, 6:07 am

I plan on giving away a review copy to +mK and virtualhacker.

Please both of you, pm me your skype id.

SkoutiOP - February 17, 2013, 7:16 am

I am earning around 10\$ per day with 120-100 clicks, and I have 10% conv rate on average, and everything is from youtube are you able to give me a small "vouch copy"?

If not I will wait for the elite earners the review, I hope it's not something that gets saturated!
