Thread: [I can not be accepted by Fileice!](#)

Monster.PPD - February 18, 2013, 8:52 am

Hello, as the title says I can not be accepted by fileice. I'm looking for someone who can help me be accepted (with a referral link if he wants).

However, I do not want a text that was already been used lots of times and no longer works. Thank you in advance.

Send me a PM and I will help you! Already helped some people with PPD (check my rep if you'd like to see it)

Nobody can help you other than yourself, you need to reevaluate how you are writing your application. You can try joining under my program if you like, that might help as I'm an old member on there.

I will help you out, I have a link given to me that will get you accepted 100% as long as you give real information. Though I will have to make sure you know the rules and you are willing to follow them. Message me if you're interested.
