Hey guys, what's up?!

It seems as if I'll be the first person to do a review on this eBook, which I don't mind - don't expect a professional review.

I'll give you guys a bit of a background to understand what type of marketing I come from, so you can see if this applies to you.

I work with PPD, CPA, and Youtube to make money with. I've been using Youtube for over two years, and it can be hard at times.

I get around 1,000 visitors a day to each of my 3 niches a day, and anything that can help boost my clicks will certainly help.

Now, down to the review....

The eBook itself is fantastically structured. For each step, there is one picture to help you guide through the entire process. I literally was able to follow this eBook step by step, reading exactly what it says to accomplish what was needed. Within the steps, there is no unnecessary information that is just spamming up the eBook, it is to the point and gives you general information for as to why you need to do it.

I have used a similar method to do, and it will certainly grab you more clicks to your website than you had before. With this method, you will squeeze out as much traffic from your videos as you can, maximizing all your profits from your website.

For example, I have used this method in a not-so-effective way before, and I was getting about 40% more clicks from it alone because of it.

I totally recommend this eBook to anyone who is trying to get into the Youtube game, or even if you have been using it for awhile - it's definitely worth your money, I promise you guys!

I'd honestly say that this will easily get you 40% more clicks, but remember that it won't mean 40% more earnings - as that greatly applies to your website and nice itself, but anything helps - right?

Normally, eBooks are not worth your time - but this is for once worth your money, for a cheap \$14.95!

Thank you for allowing me to review this eBook for you, it was my pleasure. Happy monetizing everyone!

I have received this method from OP, and I must say that if you have a good niche, then this exact method can make it even better. Your conversion rate is bound to increase, hence you will make more money. Don't expect to make money if your video is not ranked, this method will not help you to rank your video, but this exactly will increase the number of downloads you get.

Good luck with sales.

(Feb 28, 2013 08:23 AM)BBeta™ Wrote: [\[CITE\]](#) Vouch for Phil Dunphy all of his methods have worked perfectly.

I will buy this when i have handled my paypal problems :)

Good luck whit sales.

The quality of this guide is great, the author explains everything very nicely and in great detail. He clearly knows what he is talking about and delivers exactly what is expected from the title of this guide.

The author lays out a step by step guide on how to initiate the method with detailed images and text. You will not need any additional resources or information of any kind in order to use the trick, just a YouTube account and the information the author supplies you with.

The Layout of this guide was easy to follow and the author did a good job of making it flow nicely. The guide includes detailed images with links and text, just enough to demonstrate the technique clearly with minimal questions.

The grammar in this e-book is excellent with very few errors throughout and nothing to affect it's coherence or readability.

This trick is pretty original, I have never heard of it and is overall a great idea that could potentially boost your earnings a noticeable amount.

[img]<http://i367.photobucket.com/albums/oo119/mistahellfire/notes.png>[/img]

Great guide, author clearly explains the trick and how to initiate the method step by step. The trick it self seems so obvious, but can without a doubt boost your earnings if you aren't already using it.

Good luck with sales!

Offered throughout this ebook is a linear, step-to-step process that is explained with images and details. While I can't say that the author went above and beyond for the quality, what needs to be there is there.

Essentially, the method only requires a few clicks and is just a short tutorial. I don't see how anyone would have troubles performing it.

Layout-wise, it wasn't flattering. Just simple text and inconsistent spacing parameters. Aside from the lack of effort, it did flow at a decent pace, allowing you to concentrate on the text. Including so many images was also a plus, for a semi-professional outlook.

As the author even states in the introduction, the English language is not his native language, so a few errors are to be expected. I did not notice, however, anything that would impede its readability, especially with the images keeping you on track.

Like I stated earlier, this ebook is literally a tutorial on how to enable a few of Google's features, on Youtube, to increase your CTR rate. I wouldn't say it's original or unheard of, practically at all. Many major channels use this method and it's no secret. Google even advertises all of the features.

Do note that the success of this "method" depends on the success of your Youtube channel.

Good luck with sales!

Let me know what you think about the product, i'll post it [HERE!](#)

Payment methods: PayPal Only 14,95\$ - Auto Buy (You'll be Redirected to the eBook Immediately after your purchase)

Cheershello zyphr,

First I want to thank you for taking your time and leaving your comments here.

Actually I can't link you to the channel because you'll know what's the method is about. but I can tell you that this method works with ANY channel, even with a new account. you just need to mobile verify it and you're ready to apply this method!

Looking forward to talking with you soon,

To your success.

Marc.

funtela - March 19, 2013, 10:32 am

Just PMed you about this ! Get back to me when you get the chance I'm very interested :)
