I'd like to win 5\$ because: It's been good 7+ months that I am really working hard to do my best for HackForums. And I believe my work should speak for itself. Let it be the Lounge, giving suggestions/ideas for the betterment of HackForums in the 'Suggestions' section, participating in healthy discussions ; I have tried to be active in every section that suits/interests my knowledge areas. Not only this; I am pretty much in to giving quality advises to our members, it can be an issue

that they are facing on HackForums or some personal problems pertaining to their life (Only if they are willing to discuss it). Additionally, being in to the technical field, I really feel excited in solving technical issues of our fellow members. And I must say, I have solved many such technical queries here..
