Thread: [Web Based Rat ? Stable ? Cheap ? Auto Buy](#)

xH20s - February 24, 2013, 7:24 am

hi,

i finished coding my online RAT

its monthly subscribe 10\$ PayPal accept only with auto-buy
you can subscribe and get your own unique Server.exe after payment

note: each user have different stub auto generate using php/vb.net

screenshot of control panel after subscribe : <https://i.imgur.com/uamRS8E.png>
function on my rat :

- File Manager
- Process Manager
- Screenshot/Functions
- Download And Run Applications
- System Function
- TCP & UDP Manager
- Trick/Joke Functions
- Keyboard Monitor/Keylogger
- Control Camera
- Custom Plugin

i will add more when i get more active members

i will give a free month for testing to :
first trusted member with reputation 100+ OR moderator with reputation 10+

link of the rat : <http://www.tw4r.com>

server.exe size 46 kb (FUD) (have botkill and protect pc)
