Thread: [\[Wallpaper\] Rate My Wallpaper?](#)

Hey everybody, this is the first wallpaper I've done for myself, although I've done a few others for other people.

I just wanted to know what you guys think of it, what you like and dislike and how I could improve. Thanks!

I like everything about it except the ribbon, it just seems too plain for the rest of the wallpaper :) 8/10

The thing I dislike is you're using those pre-made images etc.
Learn to make them yourself.

It looks to simple, like you didn't do much. I don't know what else to say...6/10

Looks pretty good, can i ask how you do your 3D text, so you use photoshop's 3D feature or do the multiple layers of text moved?
