Thread: [BR3TT ~ Carbon Userbars \[FREE\]](#)

VirtualFrost - February 28, 2013, 1:21 am

This is the first set of free custom Userbars I have created EVER. They are just simple carbon fiber themes userbars. I am giving this out completely free, download link below, enjoy!
Perfect for MyBB Forums!

They look very nice man, good job, might be of great use later

Raitz - February 28, 2013, 11:14 am

Did you include the .psd's? They look good, but it would be nice if people could edit them.

Yeah they're in the download link!

Just you also need the font Lobster, might put that in myself later on
