Thread: [fav ide/compiler? c/c++](#)

Surfermike17 - March 2, 2013, 6:01 am

lookin to start learning in either c/c++ in my spare time

please list your favorite ides/compiler as im in need to download one to start learning...

also any gui builders would be great thanks

Arbitrage - March 2, 2013, 6:52 am

Microsoft Visual Studio 2012 Express is my favorite one.

Try cruising this section and you'll find plenty of posts of the nature "What's your favourite 'enter topic here'...".

These types of questions are asked daily/weekly....
