I never got asked that also I don't have a website so this was a miracle, to those of you who are asking how did I do it I am not going to say as it is cheating..I dont cheat or lie in my real life.

Hint. Just be honest and tell them what your selling and why...easy ?

Good luck, If done right you could make some serious cash there.

I already made \$7463.93 with File_ice.

I don't why I got denied, I gave my Correct Living Address , still they think it's not true.
